Mack Pharmatech: Building relations

**Mr. Kiran
Badgujar,**
(Managing
Director)

Mack Pharmatech is a young and progressive, dynamically developing company. It was founded in 1999 by a group of professionals who had many years of experience in the field of Pharmaceutical Equipments. Quality and customer services are also the two reasons behind the success of our organisation. We offer best quality equipment at most economical rates, which has made our customer support us for the past ten years.

We are the 1st Indian company to successfully implement CE approved products in India. We are manufacturing our machines as per the ICH & GMP guidelines. We are also ISO 9001:2000 organisation. Mack Pharmatech's strong engineering base with in house Engineering, Research and Development is the backbone of the quality manufacturing. Its main strength lies in its very quick development of new products and its flexibility & adaptability to a changing environment. The main focus of the company is to developing PLC based Control System (make ALLEN BRADLY) & Software with Browser Based.

Recently we expand to shift our head office at our factory address in Nasik. We offer best quality equipments at affordable prices with durability, which highly reflected in customers mind. We also adopted global trends with sound technological changes

Nasik Factory

quickly & applies as per the needs & demands of customers. We pride ourselves for providing our best service available at the most competitive cost possible. We are constantly updating and upgrading our test equipment and procedures to allow us to maintain our leadership role in all our services and in lab instruments Mack Pharmatech has made a commitment to innovation in environmental test chambers design and construction and is dedicated to complete customer satisfaction offering total responsibility for the products and services we provide.

Most of our esteemed clients like Ivax India (TEVA Group), Apotex India, Biocon, Cipla, Ranbaxy, Glaxosmithkline, Nicholas Piramal, Matrix Lab (Mylan), Jubilant Clinsys & Jubilant Organosys, Sun Pharma, Alembic, Strides Arco, Dr Reddy's and many more.

With strong new business visibility and our ability to expand existing relationships, we remain confident that we will continue to drive growth, achieve our strategic corporate objectives, and emerge stronger in our journey towards global leadership. We also plan to have service stations in all key metro cities within India as well as abroad.
